## TEN MORE DEATHS

JACKSONVILLE UNDER AN I CREASING CLOUD OF GLOOM.

DESPAIR FILLS THE HEARTS OF THOSE WHO LINGER.

The Total Number of Fatalities Have Now Reached Over One Hundred—Professor Richard A. Proctor, the Well Known Astronomer, Dies in New York City of the Plague—One Death Reported From Decatur, Alabama—Kentucky and Tennessee Petition the President.

JACKSONVILLE, Fla., Sept. 14.—The official bulletin for Wednesday, ending at 6 p. m., was: New cases, 50; deaths, 10; total number of cases, 742; total number of deaths, 100. A train loaded with refugees left here Wednesday morning, carrying 250 persons who desired to seek shelter in the North. It left early in the morning, and the scenes at the depot between those who left and those who remained was affecting in the extreme. Everything is discouraging and especially the weather, which is rainy and heavy.

The hospital corps, which have heretofore been inadequate, are rapidly being enlarged and improved.

The Knight Templars are taking more interest in affairs than was expected, and much is now looked for.

Camp Perry is being rehabilitated and the cottages put in proper order. The negroes are being separated from the whites and it will be but a little time when most of the disorderly and obnoxious will be under control, as a large guard house and ample police are ready to keep them in subjection.

The dining halls have also been improved and enlarged, and in view of the fearful outlook, people will be cared for and protected, if scientific sanitation can do it.

Nurses and money are now coming in quantities large enough for all ordinary purposes, and the miserable weather will just let up for a while things will soon improve. Dr. Neal Mitchell has received a check from William Astor, of New York, for \$1,000. Miss Clara Barton has telegraphed that the Red Cross has sent more nurses from New Orleans.

R. H. Simons telegraphed from Charleston, S. C., to draw on the local post of the Alpha for \$55. B. Bottman sent word from the same place to draw for \$300.

The bravery of the newspaper men and telegraph operators is something of a sort to be called heroic. They stand at their post with the unflinching intrepidity of men that are read of but seldom seen. It is absolutely moving to witness their cool determination to face the worst in the discharge of those duties that will notify, warn and educate humanity on a subject that most men, no matter how brave, studiously shrink from.

Advices from McClenny state that there are about sixty-five cases there, and all the physicians are sick but one. Medical aid and nurses are badly needed. The executive committee of the Jacksonville Sanitary association voted to extend financial aid to McClenny, as there promises to be funds that can be spared for the purpose and it is believed the Jacksonville relief committee will endorse this action.

LATER—There were fifty-two new cases and six deaths reported up to noon Thursday, making a total of nearly eight hundred cases since the fever first made its appearance, of which 108 have died and 230 have recovered. For the past week very unfavorable weather has prevailed. Almost every day there has been a warm, steaming rain, followed by an exceedingly hot sun. A heavy fog envelops the city most of the time.

Richard A. Proctor Dead.

NEW YORK, Sept. 14.—Professor Richard A. Proctor, the greatest of all astronomers, and one of the greatest exponents of natural science, died at the Willard Park hospital Wednesday night of yellow fever.

Professor Proctor came here Monday from his home at Oak Lawn, Marion county, Florida, where he has a magnificent observatory, where he spends most of his time and does most of his work.

It was a genuine case, and no doubt prevailed. There is great excitement and apprehension over the death, and especially so in view of the fact that Professor Proctor was one of the best known men in the world of science.

Creeping Northward.

CHATTANOOGA, Tenn., Sept. 14.—Word was received here Wednesday that A. D. Spencer died of yellow fever at Decatur, Ala. Mayor Ficklin immediately telegraphed the mayor of Decatur, who answered, saying that it was not yellow fever but blood poisoning. Not satisfied, a member of the state board of health went to Decatur.

Word was received from him that Dr. Cochran, president of the Alabama state board of health, says it was yellow fever. Tennesseeans are greatly excited but still hope by a strict quarantine to keep the fever out of the state.

The executive committee of the state boards of health of Tennessee and Kentucky have petitioned President Cleveland to appoint Dr. Joseph Holt, of New Orleans, as administrator of sanitary affairs in Florida, in place of the present incumbent, who, they say, does not inspire confidence.

The Cincinnati Journalist.

NEW YORK, Sept. 14.—The New York Sun's Jacksonville correspondent telegraphs that Editor Baker, of the Cincinnati Evening Post, who is there aiding sufferers, has been stricken with the yellow fever. The correspondent adds that he is starting out to hunt Mr. Baker up and see that he has every attention.

St. Louis Raises a Fund.

ST. LOUIS, Sept. 14.—A meeting was held at noon to-day on 'Change in aid of the yellow fever sufferers of Florida. Twelve hundred dollars was subscribed in a few minutes, and a committee appointed to canvass the city for further contributions.

Pat Shedy's Warnings.

NEW YORK, Sept. 14.—Pat Shedy, who arrived in this city from Chicago about ten days ago, has, it is understood, won \$37,000 from the New York faro banks since his arrival.

## FIRE RECORD.

An Opera House Burned in Syracuse, New York—Elsewhere.

SYRACUSE, N. Y., Sept. 14.—The Grand opera house block was completely destroyed by fire, together with the stock and fixtures of five business firms. Owing to delay in giving the alarm the fire gained great headway, so that the fire department could do no better than protect adjoining property. The burned block extended from East Genesee to East Fayette street. The theater was located on the second floor, and the fire broke out on the stage, making its way through the roof.

The ground floor was occupied by George Kuntzsch, saloonkeeper; John Hamn, Jr., stoves and hardware; Kinney & Doolittle, wholesale liquor dealers; Gear & S. Friend, stoves and hardware; and Mead's business college, all of which were completely burned out. The Grand opera house block was valued at \$100,000. The total loss is estimated at \$160,000, moderately covered by insurance. The members of Kimball's "Merrie Makers" company lose all their costumes.

Two Men Burned to Death.

TOPEKA, Kan., Sept. 14.—Early Wednesday morning fire was discovered in Rockwell & Company's general store, at Junction City, this state. A gale was blowing at the time, and the flames spread rapidly to other business places, causing a total damage of about \$125,000. The bodies of Albert Franks and Milo Everleigh, clerks in Rockwell's store, were found in the debris. It is supposed the young men made an effort to extinguish the flames and were overcome by smoke. It is thought the fire was of incendiary origin.

Surprised His Employees.

NEW YORK, Sept. 14.—The firm of Ilsey, Doubleday & Company, dealers in paint, at 229 and 231 Front street, and 2145 Third avenue, have been aware for some months that some of their employees was stealing from them. Two months ago the case was placed in the hands of Inspector Byrnes. Detectives Jacobs and Kush were detailed to do the work, and succeeded in capturing the thief on Tuesday. He was Charles Stevens, a trusted clerk of the firm, who has had charge of the Third avenue store. He is twenty-six years old, and lives at the corner of Willis avenue and One Hundred and Thirty-second street. The members of the firm were much surprised at the discovery of his guilt. He was taken to the Jefferson Market police court yesterday morning, and Justice Gorman held him in \$700 bail for trial. Mr. Doubleday said last night that the firm had no means of knowing how much Stevens had embezzled.

Newfoundland in No Hurry.

NEW YORK, Sept. 14.—The World's Ottawa, Ont., special says: The dominion government has received notice from the governor of Newfoundland that the delegates who were to start for Ottawa September 15 to arrange a basis for that colony entering the dominion has been indefinitely postponed. It is understood that the strained relations between Canada and the United States has led to this sudden suspension of negotiations. Sir John Macdonald contends that while Newfoundland is a party to the treaty of 1882, which has caused all the irritation, the colony would not suffer from any retaliation the president may impose, and therefore should not withdraw on that account.

Knocked From a Train and Killed.

NEWARK, O., Sept. 14.—Charles Kaiser, a hotel keeper of this city, was accidentally killed Wednesday morning while returning home on a Baltimore & Ohio train from the Columbus centennial. The train was so crowded with excursionists that Kaiser was standing on the platform with a number of other passengers. Among them was a drunken man, who was very disorderly, and who either struck Kaiser or fell against him, knocking him off the platform of the train. When picked up he was dead, his neck having been broken by the fall. He was thirty-five years old, and leaves a wife and child.

New Orleans Gets the German Singers.

NEW ORLEANS, Sept. 14.—The North American Singers' union, an organization of about one hundred German singing societies in all parts of the United States, has decided to hold its next great singing festival in New Orleans. Delegates of the different local organizations met last night, with Professor J. H. Deller in the chair, and selected Jacob Hassing, proprietor of the New Orleans German Gazette, and a committee of seven prominent German citizens to arrange for a proper reception of the union. The festival will be held in February next.

Barn Doorway Too Low.

ELKHART, Ind., Sept. 14.—Herbert Towle, a wealthy and very prominent young farmer, living a few miles west of here, died Tuesday, the result of injuries received a few days previous while attempting to drive through an open barn doorway that was too low to admit him. He was seated on a high load, and did not think of the rise at the entrance before he was caught and fearfully crushed. He leaves a young wife.

A Somnambulist's Fate.

DUBUQUE, Iowa, Sept. 14.—About 2 o'clock Wednesday morning Rev. Father Richardson, of Cedar Rapids, fell from the window of his room on the fourth floor of the Lorimer house, receiving such injuries that he died a few hours later. His skull was frightfully crushed. He never recovered consciousness. He was a great sufferer from Bright's disease and somnambulism which had affected his reason.

Two Counterfeiters Jailed.

CHICAGO, Sept. 14.—Two dangerous counterfeiters were arraigned before Commissioner Hoyne this morning, and on their valuing examination, were held to the Federal grand jury in \$1,500 bonds, which they were unable to produce. Their names are Fred. Keech and Jacob McLaughlin, and they were arrested by Capt. Porter, of the secret service, and Deputy Marshal Dutcher, at Mount Carroll, Ill., where they lived. In the cellar of McLaughlin's house the officers found a complete set of dies, molds, etc., used by makers of spurious money, as well as \$115 in \$1 and fifty cent pieces, in various stages of completion. Keech made a full confession.

## BREAKING RANKS.

CLOSE OF THE GRAND ARMY ENCAMPMENT AT COLUMBUS.

MILWAUKEE CHOSEN AS THE NEXT PLACE OF MEETING.

General William Warner, of Missouri, Chosen to Succeed General Reas Commander-in-Chief of the Grand Army of the Republic—A Brief Biographical Sketch of the Future Head of the Organization.

COLUMBUS, O., Sept. 13.—Notwithstanding that fully 40,000 people have left the city, a large proportion of the old soldiers remain. Saturday, few will be left to tell of the most successful National encampment ever held. The report of Adj. Gen. Fish shows a total of \$215,975 distributed in relief of comrades in various ways, \$13,131.73 of that amount being expended in Ohio, \$404.46 in Kentucky, \$6,441.69 in Indiana.

It has been decided that the next annual encampment will be held at Milwaukee.

The candidates for commander were Gen. Warner, of Missouri; Gen. Goodman, of California; Gen. Duffield, of Michigan, and Gen. Lineham, of Wisconsin. Gen. Warner seemed to have the lead from the start. He arrived here Wednesday night and began working hard for his election.

Gen. Warner, of Missouri, was elected commander-in-chief of the Grand Army of the Republic.

All opposition was withdrawn and instructions were given that he should receive the entire 495 votes.

William Warner was born in the city which he has represented in the senate and elsewhere. Kansas City witnessed his birth in 1844, but he was brought up and educated in Wisconsin.

His studies began at Lawrence university, and at their completion he became a lawyer.

Mr. Warner served three years and a half in the Union army in the Thirty-third and

was elected city attorney of Kansas City in April, 1867, subsequently acting as circuit attorney for the counties of Jackson, Johnson, Lafayette, Cass, Peters and Saline, Missouri, in November, 1886.

He was unanimously chosen mayor of Kansas City in 1871, and became presidential elector on the Grant ticket in the following year. In 1882 he was appointed United States attorney for the western district of Missouri, and received in 1885 the votes of the Republican members of the Missouri legislature for United States senator.

Mr. Warner was elected to the forty-ninth congress as a Republican, receiving 16,176 votes, against 14,651 votes for Alexander Graves, his Democratic opponent. Mr. Warner has always held that public duty was a public trust, and has acted on this theory accordingly, becoming a general favorite wherever he is known.

At the morning meeting of the Woman's Relief corps the National treasurer, Mrs. Elizabeth A. Turner, of Boston, reports over \$10,000 in the treasury.

After the session the local organization was presented with a fine portrait of Department President Mary E. Bancroft, in recognition of their very excellent work as entertainers.

Come to Meet Chauncey.

NEW YORK, Sept. 14.—Friends and admirers of Hon. Chauncey M. Depew, to the number of about three hundred, started down the bay on the steamer Sam Sloan at 7 o'clock, to greet that gentleman on his return home in the steamship Ems. The steamer was signaled shortly before noon.

Wants \$50,000 for a Broken Heart.

NEW YORK, Sept. 14.—Miss Mary C. Murray, of Brooklyn, has engaged counsel to bring an action for \$50,000 against George Morford, a millionaire of Bridgeport, Conn., for breach of promise of marriage. She also brings suit against Morford for \$10,000, the value of some diamond jewelry which she alleges he took from her after he had changed his mind about marrying her.

David B. Hill for Governor.

BUFFALO, N. Y., Sept. 14.—There was much Democratic enthusiasm Wednesday night over the renomination of David B. Hill for governor. Lieutenant Governor Jones was also renominated by acclamation and John Clinton Gray named for judge of the court of appeals. The platform adopted by the convention strongly supports Cleveland's policy and utterances.

Captain Pratt Wants a Change.

PIERRE, Dak., Sept. 14.—Capt. Pratt, of the Indian commission, has gone to Washington to get a modification of the order relative to securing the signatures of Indians. He wants an order compelling the Indians to sign one paper or the other rescinded; also, one compelling the Indians to hold a council before signing. It is claimed both are detrimental to the success of the commission.

Plut Stewart Gets His Reward.

WASHINGTON, Sept. 14.—Mr. Butterworth secured the passage of the bill for the relief of James A. Stewart this afternoon. It directs the secretary of the treasury to pay James A. Stewart, of Cincinnati, O., \$4,700, said sum to be in full payment and discharge of the amount due for services rendered as pilot of government transports and gunboat from October 6, 1863, to April 30, 1865.

Keely Motor Directors Resign.

PHILADELPHIA, Sept. 14.—The resignations of the three Philadelphia members of the board of directors of the Keely Motor company have been accepted and the vacancies filled by New Yorkers. This action places the company entirely under New Yorkers. There is likely to be some interesting developments soon.

General Fisk Suddenly Taken Ill.

DETROIT, Sept. 14.—Gen. Clinton B. Fisk was to have addressed a local Prohibition rally in this city, but was taken suddenly ill at Rochester, N. Y., and returned to his home.

## NATIONAL GREENBACKERS.

Thirteen Delegates Meet at Cincinnati to Nominate a National Ticket.

CINCINNATI, Sept. 14.—The Greenback party are in session here for the purpose of placing another National ticket in the field. The convention was called to order at 13 o'clock in parlors A of the Burnet house by George O. Jones, chairman of the National committee. There were just thirteen delegates present.

A comical incident was the effort of Col. Doughty, of Mt. Washington, who has put up a ticket of his own, to fuse with the Greenbackers. After an informal discussion an adjournment was taken until 2:30.

At that hour Chairman Jones called the convention to order and proceeded to read letters from some two hundred members of the party throughout the country. Mr. Jones then proceeded to score deserters from the party, particularly Mr. Gillette. Fusion was also denounced.

Upon motion of Leo Crandall, Mr. Thomas, of Kentucky, was selected chairman, Thomas G. Sharpe, of Indiana, secretary. On motion of Mr. Jones a committee of three was appointed to prepare an address.

The chair appointed Messrs. Jones, of New York; James, of Tennessee, and Moody, of Kentucky. R. L. Wolcott, of New York, was chosen treasurer, a delegate saying there might be some money in the treasury.

D. L. D. Sheldon, of New York city, who is a Greenbacker from away back, addressed the meeting.

Massachusetts Republicans.

BOSTON, Sept. 14.—Oliver Ames was nominated for governor by the Republicans.

Frauk D. Allen, of Lynn, then presented the name of Hon. J. O. A. Brackett as a candidate for lieutenant governor. The nomination was carried by acclamation.

Fred. Hall presented the name of Henry B. Pierce as a candidate for secretary of state, and it was carried by acclamation.

Charles R. Ladd was nominated for auditor by acclamation.

A. J. Waterman was nominated for attorney general by acclamation.

Indians of the Northwest Starving.

OTTAWA, Ont., Sept. 14.—Late advices from the northwest report great suffering and many deaths from starvation among the Indians of the Canadian northwest territories. From the Peace river district several cases of cannibalism are reported, where, to save their own lives, heads of families have killed and eaten their children. Last session parliament voted the sum of \$34,000 for supplies for the Indians of the northwest, but from what has been learned it appears that dishonest agents who were entrusted with its distribution have appropriated the greater portion of the grant. Gabriel Dumont, chief of the Sisseton, has again been attempting to stir up feeling among the Indians, with, it is said, a considerable degree of success.

Texas Fever in Illinois.

STREATOR, Ill., Sept. 14.—A contagion of genuine Texas fever in its most violent form has broken out near this city, on the dairy farm of the Bacon brothers, one-half mile southeast of Streator among their large herd of milch cows, for which their owners have for years been supplying the greater part of the city milk trade. The matter has been kept as quiet as possible, but up to date fifteen animals have died, three are nearly dead, and two are missing, and supposed to have perished. Assistant State Veterinarian James Bond has charge of the case, and is in active correspondence with the state veterinary, relative to the contagion. The germs are supposed to have been dormant in refuse thrown into the pasture from a number of stock cars.

Will Mark the Channels With Lights.

NEW YORK, Sept. 14.—A Herald special from Washington says the light house board has issued a notice to mariners to the effect that about the end of September an attempt will be made to light Gedney's channel, New York bay, by 600-candle power incandescent electric lamps enclosed in lanterns, supported by spar buoys. This is the beginning of an experiment which will be gradually extended to all the channels and particularly to the anchorage grounds on the most frequented part of the harbor.

Seal Plentiful.

NEW WESTMINSTER, B. C., Sept. 14.—The sealing schooner Triumph arrived, Wednesday, at Victoria from Behring sea with 2,400 skins. She reports seal plentiful, but the weather during most of the trip was very rough. An American cutter came alongside the schooner once, but made no attempt at seizure. The American gunboat Thetis was also sighted near Urgut. It is expected that all British Columbian vessels will make good catches this season.

The Close of the Pope's Jubilee Year.

BALTIMORE, Sept. 14.—Cardinal Gibbons to-day issued a circular letter to all the clergy, calling attention to the close of the pope's jubilee year on Sunday, September 30. The clergy are requested in accordance with the desire of the pope to invest the services on that day with unusual solemnity, and the day is appointed as one of indulgence for all the faithful.

A Broken Flange.

OSHKOSH, Wis., Sept. 14.—While a passenger train on the Milwaukee, Lake Shore & Western road was rounding a curve half a mile from Tigerton Wednesday morning the flange of an engine wheel broke. The engine was thrown down a low embankment and four cars were derailed. Engineer Nelson stuck to his post and was badly scalded by escaping steam.

Cotton Crop.

NEW YORK, Sept. 14.—The cotton crop of the United States for the year ended September 1, 1888, as compiled by the Financial Chronicle, amounted to 7,017,707, against 6,513,692 bales in 1887, and 6,350,215 for 1886. Of the crop of 1888 there was exported 4,038,951 bales, while spinners took 2,978,756 bales, leaving a stock on hand of 181,235 bales.

Ran Down By a Schooner.

EASTPORT, Me., Sept. 14.—Mrs. Thomas Myers and daughter, aged twenty, were run down yesterday in the harbor by a schooner and both drowned.

# DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.  
ROSSER & MCCARTHY,  
Proprietors.

FRIDAY EVE., SEPT. 13, 1883.

"UNNECESSARY taxation is robbery."

COLONEL A. M. SPOVE has consented to accept the Republican nomination for Congress in the Lexington district, if tendered him.

MAJOR J. J. BURCHETT, Republican nominee for Congress, Rev. Green Clay Smith, and Colonel A. M. Spove delivered political speeches at Owingsville last Wednesday.

BLAINE came home with his heart full of love for the workman, and his trunk full of foreign made goods.—Exchange.

Yes, and with his tongue loaded down with campaign lies. But the people of this country know Mr. Blaine.

The President's letter of acceptance is complimented throughout the land. Democrats everywhere agree that it is an able document. It takes well with the people, and will not fail to have a good effect on the campaign now in progress.

THE Hong Kong Gazette, of August 3rd, says: "If Harrison and Morton are elected in November next, there will be three hundred thousand Chinamen landed on American shores in 1889, with a constantly swelling tide thereafter."—Exchange.

The Gazette evidently has faith that Harrison will continue as much of a friend of the Chinese as his record has shown him to be in the past.

For more than a quarter of a century we have had a high protective tariff, and manufacturers have grown rich. Have the laborers they have employed grown rich also? Has protection protected them? Let the almost universal discontent which prevails, and the strikes and lock-outs of which we see almost daily accounts from the manufacturing and mining districts answer.

THE Maysville Republican grows eloquent over the "American System of Protection" and wants everybody to vote for Harrison, because "glass bevelers" in America get \$15 per week and in Germany they get \$3 per week. Perhaps the Republican does not know that Germany has a higher protective tariff than the United States. How is it that protection makes wages high in America and low in Germany?—Louisville Times.

STATISTICS show that only 2,623,089 persons are engaged in industries which are benefited by the tariff, and that there are 57,000,000 people in our country who derive no benefit from the tariff, but are oppressed with its burdens. This being true, it is difficult to understand how the industry and enterprise of the people will be paralyzed or the prosperity of the country destroyed by the fair and conservative reduction of tariff duties proposed by the Democrats.

IN June, 1872, raw hides were put on the free list, and it was asserted that it would make them so cheap that farmers could not sell them for enough to pay the cost of curing and shipping. But this proved to be a mistaken prediction. Every branch of the leather industry has flourished as never before. Our exports of sole leather have increased so decidedly that they are now twenty times what they were when the tariff, or tax, was removed from raw hides. Even so will it prove with raw wool.

IN the city of New York in a protected industry women receive for making a pair of pantaloons the sum of 5 and 6 cents. The get 3 cents a dozen for working button holes by hand, and are paid 25 cents a dozen for making shirts. The highest price paid by any manufacturer in that city for this kind of work is 35 cents a dozen. The truth of this is established by the testimony of Mrs. M. W. Farrer, President of the Workwomen's Protective Association, printed in the Second Volume of Capital and Labor. While the manufacturers are getting rich this is the kind of protection labor gets.

## The Tariff on Lumber.

The loudest demand for the protection of lumber comes from the Pacific coast, and from Michigan and Wisconsin, from the land-grant and railroad corporations, and from men who have monopolized the public lands in vast tracts at \$2.50 an acre under the existing laws, when it is fully established that the timber on the larger portion of these lands is worth from \$50 to \$100 an acre. Surely these men who have secured under our system of legislative favoritism a monopoly of the most valuable portion of our timber lands as Congressional gifts, or at a nominal price, ought not to be permitted to add to their wealth by taxing every man who uses lumber, an article so necessary and indispensable to the comforts of human life. Will you stand by the wealth that demands protection to the lumber in the Northwest and on the Pacific coast, or will you join with the Democrats to make it free from all tariff taxation to the people who need it to build their homes?

# THE CONGRESSIONAL CONTEST.

Notes and News from the Fight in this District—Let Every Democrat Go to Work and We'll Win.

Hon. Thomas H. Paynter, the Democratic nominee, passed through Lexington last Tuesday on business. To a representative of the Daily Press he said: "If there is any division among the Democrats in the district I am unable to locate it." The Press adds: "The district has always cast a Democratic majority in Presidential races, but the Republicans have elected the Congressman for three consecutive terms on account of Democratic wrangles."

The nomination of Mr. Paynter should insure a united Democracy, and that means a redemption of the district. Let every one throw aside personal feelings, and go to work for the nominee.

An exchange says: "The Democrats could not have made a better selection than Thomas H. Paynter as their standard-bearer. Major Burchett who follows in the wake as the Republican nominee, will hardly be able to see his name reported in the next Congressional Record as the Congressman from the Ninth district. It is not in the cards for him to defeat the gallant Tom Paynter, and the Democrats expect to secure one of their old time victories on the 6th day of November."

That sterling paper, the Danville Advocate, says the nomination is a good one, and thinks the Democrats of Kentucky should send a solid delegation to the next Congress.

The Times-Democrat of Flemingsburg says: "Mr. Paynter belongs to no faction, and will win the race if every Democrat will do his duty."

The Flemingsburg Times-Democrat says: "The issues depending are too momentous for any true Democrat to refuse his earnest and undivided support. The question of the tariff and a reduction of the war taxes which are burdening our people and piling up a dangerous surplus in the Federal Treasury, is now pending in Congress. The next House will have to deal very largely with this question and it may be that one vote would turn the scale. This being the case it behooves every Democrat to be wide awake and at work. Let no honorable effort be spared to elect Hon. Thos. H. Paynter to fill the seat now occupied by George M. Thomas."

With a thorough organization, a determined fight can be made at the polls in November. Let this organization be perfected in every county in the district.

If the full Democratic vote is polled for the Democratic nominee it means a handsome Democratic victory. Let every one work to the end.

The Flemingsburg True Blue Democrat says: "The candidacy of Mr. Burchett, so far as we can see and hear, falls very flat with the Republicans of this county. The only recommendation that we can hear of his possessing is that he is a shoemaker. There are not enough shoemakers, we fear, in the Ninth district to elect him. The people prefer a Paynter."

In the last gubernatorial race the Third, Eighth, Ninth, Tenth and Eleventh Congressional districts gave Republican pluralities. But the last August election turned the tables in this district in favor of the Democrats by more than 2,500 majority. There is no doubt of the district being Democratic when the Democracy is united, which they are this year.

## Religious Notes.

Fred D. Hale is holding a revival at Eminence.

The Presbytery of Ebenezer meets at Paris October 15.

This country has 7,000,000 children out of Sunday schools.

There are nine Baptist churches at Birmingham, Ala.

Presbyterian churches will take a collection for education on Sunday, October 7th.

The three colored Methodist general conferences represent a membership of 900,000.

The M. E. Church, South, of Paris, wants the next annual conference to be held at that place.

The reformed Presbyterian Church has 116 ministers, 121 congregations and 10,927 communicants.

The Methodist women who were refused seats in the general conference, have organized a campaign to secure their rights.

Knoxville First Baptist Church wants a pastor, but will not take a man in his

first pastorate, nor one who reads his sermons.

The Main Street Christian Church, at Lexington, has voted in favor of the introduction of the organ in church worship. The vote stood 278 to 43.

In point of population the sexes are about equal in the United States, but in Church membership two-thirds are females, and of 60,000 penitentiary inmates 55,000 are men. "The statement that many criminals were once Sunday school scholars is not at all reliable, and probably very few criminals have really been in the Sunday schools," says Major McGlanghy, Warden of the Illinois penitentiary.

## Remedy for English Fogs.

If the virulence of English town fogs is ever to be abated, it will be by dint of steady, quiet, unobtrusive alterations of domestic arrangements, which it would be beneath the dignity of a newspaper writer to notice. It is not too much to hope that in time the production of smoke from house chimneys will be stopped for at least the summer half of the year, owing to a general use of gas cooking stoves and kitcheners burning small coke. Already there is a very sensible difference in this respect, for in entire rows of houses in many towns not a single fire is lighted for months together. The more that gas is popularized among the poor, by weekly collections of rental, automatic prepayment meters and similar devices, the more smokeless will our towns become, for the humblest workman's wife is the most likely to appreciate the labor and time saving capabilities of the simple boiling stove for preparing the early cup of tea, and it is the small fires otherwise required for such a purpose that make the most smoke. Smokelessness in summer is a very good object for immediate endeavor; winter smokelessness is a more serious problem. Abuse it as we may, the cheerful open fire of coals is most suitable for combating the chills and damp which make up an English winter.—Journal of Gas Lighting.

## Curiolities Offered Barnum.

I am asked if I receive many letters from human "freaks" and persons having curiosities for sale. I reply that I receive hundreds of letters on all sorts of subjects. I look over a single file of them, for instance. Here are letters offering me a chicken with three legs, a dog with three legs, a pig like a white elephant, a blue eyed cat, a violin belonging to George Washington, a cross eyed cat, a woolly horse (they are quite common nowadays), a cat with six feet. Some schemes suggested are good, as for instance, the exhibition of the Pharaoh mummy and an exhibition of crystals and petrifications from our west. One man wants to lecture on Palmistry, and thinks "New England peculiarly adapted on account of the intelligent and discriminating curiosity of its fertile minded sons and daughters." Another thinks I would "Like to Have a Fine Large Black Bear" who has "Bin a Pot ever since He was a Cub. He's a daisy."—P. T. Barnum in The Epoch.

## A Protest Against Sensationalism.

Every cheap and nasty charlatan in art or literature prefers to wring the nerves of sensibility rather than to move the noblest impulses of the heart. It is easier to make a man shudder than to make him shout hallelujahs. An epileptic fit on the sidewalk will move the vulgar crowd when the eloquence of a Burke would not reach them. A hanging will draw more women than will Rachel. An idea can only enter through the portals of intelligence, but a cry of agony uses every nerve for its circuit. Sensationalism, therefore, as the word indicates, deals with the heroes of sensation, and there is no wretch so ignorant, so depraved, so contemptibly weak in every human attribute, that he cannot disgust and horrify us when his capacity to do anything else is gone.—Nym Crinkle in New York World.

## Mason County Tobacco.

The farmers of Mason County are now busy cutting and housing one of the largest crops of tobacco ever raised by them. There is not only an increase in the acreage set out and cultivated but the crop in size of leaf and plant, in weight and quality, promises to be, and is perhaps, the best ever produced. The barns are full up and the question of house-room with many is a serious one indeed. A great many farmers have had to build new barns to hold the extraordinary yield. The late rains have not damaged the crop here as was done in other Counties.

## Death of Mrs. Mary A. Wood.

We regret to have to chronicle the death of Mrs. Mary A. Wood, widow of Andrew Wood, which occurred at her home near Washington at 7 o'clock this morning after an illness from fever of more than one month's duration. The funeral will take place from the residence next Sunday morning at 10 a. m. The services will be conducted by Rev. Henry M. Scudder.

Deceased was a most excellent christian woman, possessing many kindly virtues, and the announcement of her death will be received with sincere sorrow by a large host of relatives and friends. She was a native of Mason County, and aged about sixty-six years. Her maiden name was Humphreys.

The following children survive her: Robert Wood, Clarence Wood, Hal Wood, Mrs. Mary Taylor and Mrs. Stilwell, of Missonri.

## Smart Dog.

The Fleming True Blue Democrat says: "W. A. Sudduth has a Newfoundland dog that possesses extraordinary sense. The dog is used to churn the milk taken from his herd of Jersey cows, morning and evening. When he is done his morning and evening's work the dog is sent to Bowden's meat shop, where he receives a nice bone as a reward of his industry. A few days ago, when churning time came, the dog could not be found, though diligent search was made for him, and the morning's churning had to be done without him. Shortly after the work was done the dog made his appearance from behind a door where he had hidden himself, and frisked about as usual, making signs to be sent to the butcher shop for meat. The dairyman, however, refused to give him his breakfast, and since then the dog has not tried the smart game again."

## Hon. Claude Thomas Will Speak.

Hon. Claude Thomas, a Democratic elector for the State at large, will speak at the court house to-night at 7:30 o'clock. He spoke Wednesday night at Flemingsburg, and last Monday night at Carlisle. In speaking of the latter meeting the Flemingsburg True Blue says: "We visited Carlisle on Monday and had an opportunity of judging the political situation. The Democrats are wide awake, and old Nicholas will come up with an increased majority for Cleveland, Thurman and Paynter. Hon. Claude M. Thomas, the brilliant young Democrat, and elector-at-large, made a speech at the court house to a large audience. He most agreeably disappointed some of the older ones, who thought the youthful looking Legislator of Bourbon would not be able to interest the people on the great issues of the day. Mr. Thomas held his audience for an hour and a half, and made many good points that brought down the house. His oratory is finished and his arguments sound and forcible. He treated the tariff in a most interesting and convincing way, and was thoroughly at home at all points."

## Turf, Field and Farm.

The record of the Western pork packing shows that to date there has been a falling off of 300,000 head. Hogs will therefore likely be higher this fall.

It has been estimated that Montgomery County lost 200 acres and Bath 400 acres of tobacco from the recent flood, and even some crops on the upper lands are rotting from dampness and want of sunlight.—Mt. Sterling Gazette.

From now on to October 1 is a good time for sowing grass seed—the earlier the better, so that a good start to grow may be afforded before freezing weather sets in. Usually it is better to sow a thorough supply, especially on strong, fertile ground, where weeds are apt to grow rankly.

Some of the Chicago grain men are prophesying dollar wheat. For the first time in years Europe is bullish on the cereal, and foreigners generally are buying. A prominent Chicago dealer figures are as follows: "The crop in every European country, except Russia, is short. Some cables put the shortage in France at 60,000,000 but that I do not believe. It is short at least 35,000,000 bushels. I believe the wheat crop of the world is short 150,000,000 bushels. Then the wheat reserve as compared with last year must show a decrease of at least 50,000,000 bushels. With 200,000,000 bushels less wheat this year than last for the world's consumption, wheat ought to increase steadily in price."

## Personal.

THE Daily News, which claims to be the organ of the laboring classes of New York, says:

It is estimated that there are 50,000 skilled workers of both sexes out of employment in this city, and with the army of common laborers, and men who do all sorts of odd jobs, it is believed that the total number of persons who are willing to work but cannot obtain employment is 100,000.

This is the condition of the working people in the foremost manufacturing city in the Union, and the Republican party is responsible for it.

## IN BEHALF OF PARNELL

MICHAEL DAVITT WANTS TO BE ALLOWED TO TELL HIS STORY.

He Has Prepared an Abstract of What He Proposes to Testify To—The True Inwardness of the Irish Agitation—A Collection of Foreign Notes.

LONDON, Sept. 14.—Michael Davitt will apply to the Parnell commission to give evidence before that body. He has prepared for the press an abstract of what he proposes to testify to. He says he became acquainted with Parnell and O'Donnell on his release from Portland jail. After his tour in America he started a movement to agitate the land question. He was convinced that an alliance between the constitutionalists and revolutionists was impossible. He resolved to take an independent line, without consulting either Parnell or the Fenian leaders. In 1879 he started an agitation against landlordism on funds received from his American lectures. He received £300 from the National or Skirmishing fund, but as the Fenian press objected to the use of the fund for constitutional agitation he returned the amount.

Parnell, during his absence in America in the winter of 1879, forwarded to the league £50,000, to be distributed for the relief of distress. In 1880 Davitt, going to America to form an auxiliary league, was expelled from the Irish Republican Brotherhood for advocacy of constitutional agitation. Since then there has been constant hostility between the league and the Fenians. Early in 1880 four men visited his lodgings in Dublin, designing to murder him.

On the morning following the Phoenix Park murders he met Mr. Parnell, who, greatly excited, said he had resolved to send his resignation to the Cork electors that very day, retiring utterly from Irish politics. Parnell declared that no man could be safe where irresponsible conspirators organized deeds of that kind, aiming deadly blows at the constitutional movement on the threshold of a victory. Davitt succeeded in persuading him to reconsider.

Mr. Davitt, although taking no prominent part in the National league, co-operated with Mr. Parnell's delegates to Chicago in 1886 in trying to influence the convention in the direction of a pacific policy. He was afterward condemned to be shot by the council of dynamites of the Rossa faction because he had denounced the use of dynamite in Chicago. Mr. Davitt concludes with a reference to the "plan of campaign," of which he disapproves as only to lower rents, thus tending to prolong landlordism.

Exiled for Striking.  
CONSTANTINOPLE, Sept. 14.—Eighty cooks connected with the sultan's palace, who struck on account of their wages being unpaid, have been exiled.

Foreign Notes.  
Gen. Boulanger is at Christiania. Reports of famine in Egypt are denied. Floods have done much damage in Italy. The Bohemian diet has opened without the German members.

Floods in Lombardy and Venice have drowned many persons.

The bank of England's rate of discount has been advanced to 4 per cent.

The steamer Faelic, from Hong Kong and Yokohama, has arrived at San Francisco.

Capt. Vangele, of the Stanley Falls expedition, has arrived at Lisbon, but brings no news of Stanley.

During the naval maneuvers at Wilhelmshaven the squadron attacked the port, and afterward the crews engaged in launching maneuvers. In the evening the emperor went ashore and dined at the Officers' club. The town was decorated in honor of the occasion.

The Berlin Post says that Emperor William's suite on his visit to Munich, Vienna, Rome and Naples will include Gen. Wittich and three aide-de-camps, Count Herbert Bismarck, with a secretary, Chief Court Marshal Liebenare, Court Marshal Burckler, Gen. Habuka, Dr. Lucanus and Counsellor Meissner.

The Mayno, an old volcano in the Philippine islands, was in a violent state of eruption in July. It is thought that at least one hundred persons were destroyed by the lava and ashes. Further particulars of the floods in the Gifu show that terrible distress has been caused. It is now estimated that 150 lives were lost.

Hard Times at Charleston.  
CHARLESTON, S. C., Sept. 14.—The British steamship Domingo, arrived at quarantine yesterday from Rio Janeiro via Baltimore, but the health authorities refused to allow her to come to the city until November 1. The cotton and provision business here is almost at a standstill owing to the blockade on the railroads. The supply of provisions, bulk meats, lard, etc., is almost exhausted, and the wholesale merchants find it almost impossible to fill orders for the interior. Only 574 bales of cotton were received yesterday against 4,363 bales on the same day last year, and everybody is idle.

Fire Underwriters' Meeting.  
CHICAGO, Sept. 14.—The first session of the nineteenth annual meeting of the Fire Underwriters' association of the northwest was held at the Grand Pacific hotel yesterday morning. The session was devoted to routine business and an address by Mr. Charles S. Whiting, president of the Orient Insurance company of Hartford. The afternoon session was devoted to papers and addresses.

## POINTED PARAGRAPHS.

A St. Louis cable car jumped the track, and a lady named Collins sustained fatal injuries.

The insane asylum at Logansport, Ind., will hereafter be known by the name of Longcliffe.

Mrs. Harriet Beecher Stowe is resting comfortably, though there is not much hope of her recovery.

The St. Mary's, O., gas works drilled for gas, and struck an artesian well that threatens to put the whole town in souk.

The Christian church celebrated the one hundredth anniversary of the birth of Alexander Campbell, its founder, at Louisville.

The Louisville Times, in view of the many recent murders in that city, advocates free trade to the extent of a free use of free hemp.

The Indianapolis Journal seems to see success in the mists of futurity for Hovey, on the ground that he is a blood relation of Cleveland.

Indiana Grand Lodge United Brethren of Friendship and Sisters of the Mystic Ten, colored, is holding its twelfth annual session at Seymour.

William Francis Evans was taken from the steamer Peruvian at St. Johns, N. F., charged with stealing \$50,000 from a Birmingham, England, bank.

W. F. Perry, son of the Owingsville, Ky., postmaster, went on a protracted spree, after which he reformed permanently by putting a bullet through his lungs.

Hon. Eli Farmer, of Somerset, Ky., representative in the lower house from that county, is arrested charged with criminal assault upon Sarah J. Farmer, a distant relative.

Kentucky Methodist Episcopal conference meeting at Louisville makes a wholesome change from the usual daily murder telegrams emanating from that bloodthirsty burg.

Goldenson will be hung at San Francisco for murder. A woman applied for a ticket to the hanging, but was refused. Goldenson is weakening under the terrible strain.

At Waldron, Ind., an unknown man, supposed to be from Cincinnati, who had lived sixty years without knowing better than to go to sleep on the railroad track, was struck by a train and killed.

Mrs. Eliza Sage, serving a life sentence in the female reformatory at Indianapolis, for the murder of her child, upon hearing that her husband had sued for divorce, told a story implicating her husband in the crime.

Charles Allen, of Youngstown, O., eloped with Miss Mattie Scoville and obtained the mercy of the court; but when he abstracted brass from the Mahoning Gas company's works to add to his inborn overplus of that metal he was promptly arrested on charge of wilful delinquency.

Before a justice of the peace in the city hall, Chicago, Wednesday, Miss Mary Engel was married to Mr. Gustavus Rust. The bride is the daughter of Anarchist George Engel, who was hanged with Spies, Parsons and Fischer about a year ago. Rust was a sympathizer with the bride's father.

A Holstein-Friesian cow owned by Farmer Powell, of Crawford county, Pennsylvania, has broken the record. She is a registered cow, and her own record for thirty-one days is 125 pounds and twelve ounces of unsalted butter. This butter was made from 1,772 1-2 pounds of milk which she gave during that period.

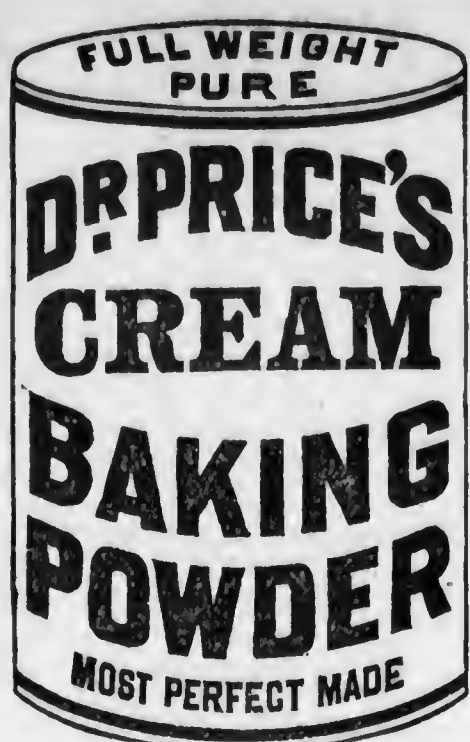

H. J. Boomer, general manager of the Pontiac & Pacific Junction railroad, who is at present in Paris, has succeeded in organizing a company of capitalists there with a capital of over \$5,500,000 to complete the Pontiac & Pacific line from Pembroke to Sault Ste. Marie and to lease or purchase from the Canadian Pacific railway the North Shore line from Ottawa.

The Weather.  
WASHINGTON, Sept. 14.—Indications—Fair; cooler; except in northwest portion, slightly warmer; winds shifting to easterly.

A Woman's Bold Fight.  
UTOPIA, Tex., Sept. 14.—A masked man entered the house of George Hay, a ranchman of Sabine county, Tuesday, in the absence of Hay. Mrs. Hay seized a gun to defend herself, whereupon the man slashed her face with a long knife. The woman knocked him down with the gun, and as he fell, he stabbed her again in the shoulder. As the man attempted to rise the woman shot him and he fell backward out of the door. Hay's dog then attacked the man, but he fought them off and escaped. As he crawled away Mrs. Hay shot at him again but missed. Hay on his return tracked the man half way up a mountain. Rangers are now searching for the ruffian.

Black Caps vs. White Caps.  
ADA, O., Sept. 14.—A new secret order signed by Garibaldi, secretary of the Black Caps, has sent out a notice to the editor of the Ada Recorder directing him to pay no attention to the recent notice of White Caps to vacate, and that they, as "a body of orderly citizens, and a band organized not after the style of White Caps, Molly Maguires, or Bald Knobbers, but for the purpose of self-protection and extermination, if necessary, of the so-called White Caps, will stand by him."

Cut in Grain Rates.  
NEW YORK, Sept. 14.—A Tribune special from Cleveland says: The Pennsylvania made a cut in grain rates without consultation with the other roads, and the Lake Shore and other competing lines met it at once. By the new rule, bran, middlings, mill-feed, flour, meal and grain are carried in carload lots from Chicago to New York on a basis of twenty cents per hundred, a reduction of five cents.

## The Ugly British Bulldog.

Talking of "handy" weapons, what a frightfully convenient weapon, cheap enough to be within the reach of all, and carrying a ball big enough to make a hole like a gas pipe, is the British bulldog revolver. It has taken more lives in its brief space of existence than any other form of translation known to inventive genius. You don't need to cock it; it does that for you. Just pull on the trigger, up goes the hammer and down it comes again and the deed is done; that slight finger pull has made a corpse and a murderer. Think of it and leave your gun at home. Teach the boys to use their fists, and give the women and old men clubs to hit with, but put up the self-cocking revolver except for mad dogs.—Buffalo News "Maa about Town."

Gastronomical and Mental Sympathy.  
Vassar Girl (looking over chum's graduating essay)—I think, Cicely, that the tone is a trifle morbid and pessimistic.  
Cicely—Do you think so, dear? It must be the pickles I ate when writing it.—The Epoch

Drawing the Lines on Gamblers.  
WASHINGTON, C. D., Sept. 14.—Charles Vincent was fined \$50 and costs by Mayor Milliken for keeping a gambling room. The marshal also arrested C. C. McCrea, William Shipley and William Conner on the same charge, and will be given a hearing before the mayor.
